Key Themes for 2026

GENERATIVE AI IN QUALITY ENGINEERING

Exploring practical applications of generative AI to accelerate test creation, defect prediction, and intelligent automation, with real-world case studies.

CONTINUOUS TRUST IN DEVOPS

Moving beyond speed to focus on reliability, security, and compliance in CI/CD pipelines, ensuring not just delivery, but trust in software outcomes.

CODE-FIRST QUALITY AT SCALE

Advanced automation strategies, reusable frameworks, and AI-assisted coding practices that help teams maintain high quality as systems and teams scale.

LEADERSHIP FOR THE NEXT-GEN QE

Guiding teams through disruptive technology adoption, hybrid delivery models, and cultural shifts to create empowered, future-ready quality organizations.

The Business Case - ROI

What your organisation gains when you send your team to Testing Talks Conference

SKILLS UPLIFT

Practical, immediately applicable techniques across AI quality engineering, test automation, and leadership.

INNOVATION PIPELINE

Exposure to cutting-edge themes, including generative AI in QA, brings fresh ideas back into your delivery cycles.

TEAM COHESION

Shared experience and language across your testing team, from juniors to leads, builds alignment and culture.

RETENTION

Investing in your team's professional development is one of the strongest signals you can send on culture and growth.

INDUSTRY NETWORK

Direct access to Australia's testing community, including peers, hiring managers, and industry thought leaders.

EMPLOYER BRANDING

A visible commitment to the testing community strengthens your reputation as an employer of choice for Quality Engineers.

Who approves this spend?

Testing Talks Conference tickets qualify as professional development expenditure. In most organisations, this falls under L&D, engineering, or team training budgets. Group ticket purchases can be invoiced to your company directly.

L&D Budget

Engineering team budget

Training & development

Professional development

Testimonials

Brent Robinson - Senior IT Manager

"Last week's Testing Talks Conference Melbourne event was fantastic! I had an incredible time learning from the brilliant speakers and connecting with friends - both old and new! 🎉".

Humera Khanum - Automation Manager

"Very well-organized event. Amazing speakers, great discussions, and yummy food! Kudos Cameron Bradley"

Richard Watson - Head of Quality Engineering

"Thanks to Cameron Bradley for organising another fantastic day for the community - amazing speakers, great food, and fantastic merchandise."

Mala Sujith - Engineering manager - Quality

"Testing Talks Conference 2025 Sydney, what a day! From AI in Quality engineering to practical strategies for building a quality-first culture and everything in between, this year's conference delivered big! "

Nicholas Huber - Test Delivery Manager

"What a wonderful event. Big thanks to Cameron Bradley and all the presenters!"

Sakina Abedi - QA Analyst

"When you finally meet your mentor in person, after all those chats! Congratulations! What an insightful conference! Looking forward to many more! #TestingTalks2019 Cameron Bradley"
